The NHHS School Council had a very rewarding 2015-16. The NHHS Council held five meetings from September to June and worked on various issues during the year including our *Culture of Care* program, the rejuvenation of the outdoor facilities and the NHHS Dress Code policy. These meetings were open to the public to encourage input from parents and other members of the school community.

The purpose of the school council is to improve student achievement and to enhance the accountability of the education system to parents. School councils are advisory organizations. A school council's primary means of achieving its purpose is by making recommendations to the principal of the school and the school board. Boards and principals are responsible for considering the recommendations made by each school council and for advising the council(s) of the actions taken in response to the recommendations.

Additional achievements of the school council in 2015-16 included providing students with an opportunity to meet Joe Roberts (Skid Row to CEO), a renewed track and a visit from author and comedian Dr. Matt Belace. Minutes of meetings held and financial records are available for public inspection at the school office.

We wish to acknowledge the hard work and dedication of the many individuals who volunteers their time to contribute to the success of the school council in 2015-16. We look forward to working with the 2016-17 group, who will focus their efforts on continuing to renew our outdoor facilities and building our *Culture of Care*.

If further information is needed, please do not hesitate to contact us.

Yours Truly,

Colleen Reynolds
